Memoires of Japan 1946

(A People Bowed But Not Bruken)

Summary

Sakkam Press Limited contacted **SAECULII Translation Service Japan** (Tokyo) for the English to Japanese translation of *Memoires of Japan 1946 (A People Bowed But Not Bruken)* by Bernard T. Smith.

Contextual and Cultural Cohesion for Depth, Nuances and Sensitivities as Intended

Memoires of Japan 1946 is the author's account of his time deployed in Japan in the post-war period.

The author, now in his 90's, stressed that it was extremely important the translator to be sympathetic to his own intent, which is to praise the Japanese people for their remarkable resilience and stoicism in the face of such terrible adversity.

(Of course, "terrible adversity" refers to the dark period immediately following Japan's surrender in World War 2.)

Below follows the author's response to a translator's question:

“

On balance, I would like to leave it to the translators to find the nearest meaning in Japanese. They seem to have very good sense of the situation and made a very good job of it so far.”
